

## SDT dual type mixing tank

### Technical Data

Mixing tank(up-tank) : 300L

agitator tank(down-tank) is : 520L

mixing rotate speed(up-tank) : 50r/min

mixing rotate speed(down-tank) : 33r/min

main motor output : 4kw,380v

assist motor output : 1.5kw,380v

overall dimension(L\*W\*H) : 1585X995X1500 mm

weight : 400kg

### Working principle:

- 1) This machine is composed of base, governor motor shaft
- 2) Material barrel is driven by the positive shaft to make complex movement including horizontal move, rotation and rolling etc., which makes the material move in 3 directions along the barrel, therefore, highly uniform mixing of various material is realized
- 3) It has larger loading capacity, short mixing time and high efficiency.
